EDUCATION

Bachelor of Technology - Computer Science
Bharati Vidyapeeth's College Of Engineering
08/2017 - Present 8.97
Anticipated date of graduation - 06/2021

Senior School Certificate Examination
St. Lawrence Convent
2016-2017 93.75%

Secondary School Certificate Examination
St. Lawrence Convent
2014-2015 93.10%

WORK EXPERIENCE

Deep Learning Intern 05/2019 - 07/2019
Coca-Cola
Worked on a project involving Image Classification of Coke products through Deep-Learning & Computer-Vision
See credential

Computer Vision Intern 01/2019 - 02/2019
AiEye
Worked on a project encompassing Computer-Vision with face detection & recognition using python
See credential

PUBLICATIONS

Depression Detection 11/2018
Presented a way to tackle one of the biggest social enemies - Depression
See paper

One more presented at ICICC for publication in the Springer AISC Series

PERSONAL PROJECTS

Dhwani
Built a model that can generate sound from an image based on the objects and background present in that image.
See Project

Smart-EV
Built a model that can predict the dynamic price of an EV charging station and the Waiting period persisting at that station.
See Project

ACCIST: Accident Assist
Built a model that can automatically detect car accidents from a live camera feed.
See Project

CERTIFICATIONS

Deep Learning Nanodegree
UDACITY
Presented in recognition for completing the Deep Learning Nanodegree program got as a scholarship from Facebook.
See credential

Data Engineering with Google Cloud
COURSERA
Presented in recognition for completing Data Engineering with Google Cloud specialisation.
See credential

SKILLS

Programming Languages
Python | C | C++ | Java

Technologies & Frameworks
PyTorch | PySyft | TensorFlow | Keras | OpenCV | ImageAI
MachineLearning | DeepLearning | ComputerVision | DifferentialPrivacy | FederatedLearning
Google Cloud Platform | Amazon Web Services
